DESCRIPTORS: *Adsorption, Separation, Gases, Sorp-
tion, Chromatographic analysis, Thermal diffusion,
Equations of state, Theory.

A theory of thermal-adsorptive separation of gases
based on the assumption of pressure equality in the
sorbent layer is presented. In the case of an infinitely
great sorption rate and of absence of longitudinal dif-
fusion in the process of thermal desorption, a distribu-
tion of the adsorbed substance corresponding to the
temperature field is established, the motion velocities
